

**To all LCGB members:**

As we are all aware, there have been many changes to public services over the past 18 months, with more changes on the way.

It would be useful to get a picture of what is happening across the sector, and how Infant Feeding services in your locality may have been affected over the past year, as well as your perceptions of how Breastfeeding Services nationally have changed.

I would be grateful if you could have a look at this questionnaire, and send me your feedback. I will collate responses and publish the results in Treasure Chest.
